Portfolio: juaangb.github.io

EDUCATION

BACHELOR'S DEGREE IN COMPUTER ENGINEERING | *University of Murcia* 2022 – 2026

- **Computing specialization**
- Overall GPA: 8.63/10 (Spanish grading scale)
- 14 courses awarded with honors (Highest academic distinction in Spain, limited to the top 5% of students per course.)

PROFESSIONAL EXPERIENCE

SMARTWAY STUDIO

Murcia Science Park, Murcia

Software Development Internship

Jun 2025 – Jul 2025

- Developed **full-stack web applications** using **Vue.js, JavaScript, Tailwind CSS, DaisyUI, ASP.NET, and Entity Framework**.
- Designed **responsive interfaces**, reusable components, and light and dark theme systems.
- Implemented **REST APIs**, CRUD operations, **JWT**-based authentication, and role-based access control (USER/ADMIN).
- Tested APIs with **Postman** and containerized the frontend and backend with **Docker** to improve portability and isolation.

CAPGEMINI

Through the University of Murcia

Academic software project simulation: EcoPath

Feb 2026 – May 2026

- Simulated a professional project to design **EcoPath**, a SaaS platform for **measuring and reducing corporate carbon footprints**, following Capgemini's guidelines as client and advisor.
- Prepared **market, stakeholder, competitor, business model, and financial feasibility analyses**.
- Defined **requirements, user stories, the Product Backlog, and software architecture**, using the **Scrum methodology** and decision matrices for technology selection.
- Designed **interactive web and mobile prototypes in Figma**, together with the definition of the **CI/CD and cloud deployment** strategy, quality standards, risk management, SLAs, and maintenance plan.

SKILLS

Programming Languages Python, Java, JavaScript, C, C++, C#, SQL, HTML, CSS

AI and Data Science PyTorch, Computer Vision, Vision Transformers, NumPy, Pandas, Matplotlib

Web Development Vue.js, Vite, Pinia, ASP.NET, Entity Framework, REST APIs, Tailwind CSS, DaisyUI

Software and Tools Git, Docker, Maven, Hibernate, JPA, SQLite, Postman, Figma, Unity, LaTeX

Methodologies Scrum, Agile, CI/CD

Soft Skills Teamwork, communication, problem-solving, adaptability, self-directed learning

Languages English (B1), French (A2)

COURSES AND CERTIFICATIONS

COMPETITIVE PROGRAMMING COURSE (2ND EDITION, 90 HOURS)

| University of Murcia

2023 – 24

AWARDS

2023 First place in the Murcia Programming Olympiad (OMP), in the category for first- and second-year Computer Engineering students, with team or then the |\|.

PROJECTS

MODULAR-ViT | *GitHub*

2026

- Python, PyTorch, Docker, YAML, NumPy, Pandas, Matplotlib, Vision Transformers, Computer Vision, Docker
- Developed an **AI framework for Vision Transformers** with a highly **modular and extensible** architecture, applying software engineering principles to interchange and extend model components and facilitate configuration, reproducible execution, and systematic experiment comparison.

HORARIGO | *GitHub*

2025

- Vue 3, Vite, Pinia, JavaScript, Tailwind CSS.
- Developed an **interactive web application for planning university timetables**, allowing users to view subjects, groups, and classes to easily detect **schedule conflicts** and facilitate timetable selection.

SMARTWAY | *Repository 1 Repository 2 Repository 3*

2025

- HTML, CSS, JavaScript, Tailwind CSS, DaisyUI, Vue.js, ASP.NET, Entity Framework, JWT, Docker, Postman.
- Series of projects developed during the internship, showing progression from **frontend** development to a **full-stack** application with a REST API, authentication, roles, and Docker containerization.

FUTBOLISTOS | *GitHub*

2025

- Java, Maven, Hibernate, JPA, SQLite, Jackson, JUnit, Mockito, AssertJ, JFreeChart, Eclipse.
- Developed an educational football quiz application featuring **user registration and authentication**, courses, learning strategies, different question types, statistics, and progress persistence.
- Designed an **extensible** architecture using interfaces, inheritance, and factories to incorporate new question types, learning strategies, and serialization formats.
